

DIGITAL TRANSFORMATION COMMITTEE

General Information

This committee will focus on promotion, development and implementation of projects driving digital transformation and disruption in the public sector, as well as spearheading initiatives for innovation-friendly regulation.

Committees' General Mission is:

- Representing members' business interests to help shape policies.
- Offering authoritative viewpoints to build understanding among authorities.
- Providing alerts and proactive advice to the business community.
- Strengthening AmCham's culture of networking opportunities.
- Raising the profile of AmCham and increasing its visibility.
- Encouraging feedback from inside and outside AmCham and acting upon it.
